

EDITORIAL BOARD MEMBER, DTC- JOURNAL OF BUILT AND SPATIAL STUDIES (DTCJOBSS)

Dr. Yogesh K. Garg, an architect and planner, has graduated from MACT (Regional Engineering College), Bhopal in 1990, completed Masters of Urban and Rural Planning (MURP) from University of Roorkee, Roorkee in 1992 and awarded Ph.D. in Architecture in 2002. He has published about 40 research papers in National / International Journals and conferences. He received scholarships at various levels under National Scholarship Scheme in 1985, college merit scholarship during the course of B. Arch., Scholarship of U.G.C. (Through GATE), and awarded C.S.I.R. Senior Research Fellowship.

He is recipient of fellowship for Training of Young Scientist of Madhya Pradesh, Career Award for Young Teachers by AICTE and IIA award 2009 in research Category by Indian Institute of Architects. He worked as an investigator for 14 research projects sponsored by Ministry of Human Resource and Development, M.P. Council of Science and Technology, University Grants Commission, All India Council for Technical Education, and MA National Institute of Technology.

He has guided numerous Post Graduate and Ph.D. thesis in Architecture and Planning and presently involved in guiding and evaluating P.G. / Ph.D. Thesis at various universities. He is an active member of Indian Institute of Architects, Indian Institute of Town Planners, Indian Institute of Interior designers, Indian society for technical education etc. and worked with them at various levels.

As a hobby he is interested in reading spiritual literature and practices meditation. He is academically interested in housing studies and interested in understanding relationship between spiritualism and architecture. He keeps himself busy in designing spiritual structures for spiritual organizations. As a researcher his interests includes computer applications in housing studies and architecture with emphasis on multiple objective decision-makings. Studying and analyzing ancient Indian Architectural treatises with application in contemporary designs and design methodologies also fascinates him.

Dr. Yogesh K Garg
